Brian Bogert

Works with individuals to become
more aware, more intentional and
become their most authentic selves.

Breaking beyond normal

High-achieving individuals don't have time to bow to anyone's expectations, but sometimes they are stuck, frustrated by their lack of progress, and feel stymied in their efforts to fulfill their true potential.

Brian Bogert teaches leaders, entrepreneurs and professionals how to become more aware, more intentional and become who they already are, their most authentic selves. Brian teaches them how to defy their own expectations, stop being miserable, and align their life with their true purpose. He opens the door to perspective, motivation and direction. When we become who we are, we unlock what is within and leave "good enough" behind us.

HOW CHOOSING TO EMBRACE PAIN CREATES SUCCESS AND AVOIDS SUFFERING

The world tells us to reduce, eliminate or avoid pain. I'm telling you the world is wrong. We must combat our tendency to avoid pain and instead learn to lean into it for long-term benefit. If we avoid pain, it's not a matter of "if" but "when" suffering will appear in our lives. During our time together, we redefine and reframe pain to understand its pivotal role in our growth. Participants will learn critical skills to increase awareness around pain and intentionally embrace pain as their pathway to success. This keynote takes attendants on a journey from avoiding pain to accepting it, and achieving purpose, joy and freedom through it.

ABOUT Brian Bogert

At the age of 7 years old, Brian Bogert was run over by a truck, and his arm was torn off. He learned at an early age not to get stuck by what has happened, but get moved by what he can do with it.

Brian has helped lead and expand the Phoenix office of a global insurance brokerage firm from \$250,000 in revenue to \$15 million over the course of a decade. Today, Brian is a professional speaker and peak performance coach to executives, entrepreneurs, athletes and others looking to unlock what is inside.

The foundation for his work is to help others become more aware and more intentional, so they can become who they already are, their most authentic selves. These traits are essential for becoming a positive leader across business, community and family.

“ I learned a long time ago to not get stuck by what has happened to me, but get moved by what I can do with it.
